

Advanced ID Asia Engineering Co. Ltd.; Quality Policy

Advanced ID Asia Engineering Co. Ltd. manufactures and supplies Automotive Components and RFID Components in First Class Quality through the commitment to an established First Class Quality Management System ISO 9001: 2008

1. Advanced ID Asia Engineering Co. Ltd. provides services and products which comply fully with our customers requirements
2. It is our policy to further develop with our customer the quality and features of the customers products for better competitiveness in the world market
3. It is our daily job to further improve our system and our products. It is a management target to get the full understanding of our quality system to any employee and supplier of the company

The management and employees of Advanced ID Asia Engineering Co. Ltd. want to achieve a common target for being the best for the benefit of the customer. Therefore we appoint Mr Mark Sukdee as our Quality Manger (QMR).

**“There is always room for quality improvement,
but there is never room for quality failure”**
